

RGB LED Strip Amplifier

Is a new RGB LED strip amplifier, It makes long LED strip implementation much more conveniently. The slim design make it easy to install together with strip or cables even in a very narrow space.

Its output power is up to 144W and built with protection wrong wiring. Is your best choice in LED strip amplifiers.

- Smallest LED amplifier
- Simple installation
- Specified strip connector
- High Efficiency, low heat
- Wide working voltage
- Up to 144W power
- Own embed control IC chip
- Wrong wiring protection
- Infinite cascading ability

Output Power	144W
Working Voltage	DC 8-16V
Max output current	3x4A
Working Temperature Range	-30°C~+75°C
Connector type	Specified Strip Connector
Dimension	42x13x3 (mm)
Net Weight	5.2g
